FundPartner Solutions (Europe) S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is accurate as at 19<sup>th</sup> February 2025.

## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of ATRIUM PORTFOLIO SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Sub-Fund is established for an unlimited duration. However, the Directors may decide to close this product under certain circumstances.

### OBJECTIVES

#### Objectives and investment policy

The Sub-Fund's objective is to generate an average annual return equal to money market rates plus 2 percentage points, by offering an exposure to the following asset classes: currencies, debt securities (government debt and corporate debt), equities and equity related securities and commodities. There is however no assurance that this return objective will be attained.

The Sub-Fund will follow a dynamic asset allocation style of investment, with no fixed allocations to each investable asset class. The Sub-Fund will mainly invest:

- directly in the securities/asset classes above-mentioned (except for commodities); and/or
- in undertakings for collective investment having as main objective to invest in the above-mentioned asset classes; and/or
- in any transferable securities (such as structured products) linked or offering an exposure to the performance of the above-mentioned asset classes, and Real Estate Investment Trusts (REITS) of closed-end type; and/or
- in financial derivative instruments having as underlying or offering an exposure to the above-mentioned asset classes.

The choice of investments will not be limited either by geographical area (including emerging markets) or by industry or in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.

The Sub-Fund can be exposed to non-investment grade debt securities up to 49% of its net assets, including Distressed or Defaulted Securities (up to 10% of its net assets).

In the event of downgrading in the credit ratings of a debt security, the Sub-Fund may, at the discretion of the Investment Manager, and in the best interests of the Shareholders, continue to hold those debt securities which have been downgraded provided that in any case the Sub-Fund's maximum exposure to Distressed and Defaulted Securities will be limited to a maximum of 10% of its net assets.

The Sub-Fund may also invest up to 10% of its net assets in Contingent Convertible Bonds.

The Sub-Fund can be exposed to asset-backed securities (ABS) and/or mortgage-backed securities (MBS) up to 10% of its net assets.

**Derivatives** For hedging and for any other purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over-the-counter.

**Benchmark** The Sub-Fund is actively managed. The money market rates (ESTER or SOFR30 Day Average, depending on the Sub-Fund's share class) are only used for the calculation of the performance fee (payable to the investment manager). The Sub-Fund does not intend to use the indices for performance comparison nor to track them. Due to the specificity of the indices, the degree of freedom is not relevant in this context.

**Dividend Policy** This Class is cumulative. Dividend distributions are not planned.

**Share Class Currency** The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

### INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

### OTHER INFORMATION

**Depositary** Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

**Asset segregation** The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

**Dealing** The NAV for the Class is calculated on each bank business day in Luxembourg ("the Calculation Day"). The cut-off time to submit subscriptions and/or redemptions orders is 4 p.m. Luxembourg time on the bank business day before the Calculation Day.

**Switching** Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target share class, type or sub-type are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch compartment, please refer to the prospectus, section switch between sub-funds, which is available at [www.atrium.pt](http://www.atrium.pt).

**Additional Information** More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at [www.fundsquare.net](http://www.fundsquare.net).

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period (RHP): Example investment</b>	<b>3 years EUR 10,000</b>		
	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>	

Scenarios				
Minimum	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 9,120 -8.8%	EUR 8,820 -4.1%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 9,120 -8.8%	EUR 8,940 -3.7%	This type of scenario occurred for an investment between March 2017 and March 2020.
<b>Moderate scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 10,080 0.8%	EUR 10,160 0.5%	This type of scenario occurred for an investment between February 2018 and February 2021.
<b>Favourable scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 11,400 14.0%	EUR 11,020 3.3%	This type of scenario occurred for an investment between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	EUR 178	EUR 553
<b>Annual cost impact (*)</b>	1.8%	1.8%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.3% before costs and 0.5% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	EUR 0
Exit costs	We do not charge an exit fee for this Class.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.53% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 153
Transaction costs	0.15% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 15
Incidental costs taken under specific conditions		
Performance fees	Paid yearly to the investment manager, based on the NAV, equivalent to 20% of the performance of the NAV per share (measured against the reference NAV high water mark(HWM)) over the performance of the ESTER + 2% during the current period. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 10

## How long should I hold it and can I take my money out early?

### Recommended holding period (RHP): 3 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for the Class is calculated on each bank business day in Luxembourg ("the Calculation Day"). The cut-off time to submit subscriptions and/or redemptions orders is 4 p.m. Luxembourg time on the bank business day before the Calculation Day.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

FundPartner Solutions (Europe) S.A.,  
15 Avenue J.F. Kennedy,  
L-1855 Luxembourg
